As the scorching heat of summer envelops us, I hope this message finds you all safe and well. With rising temperatures and the need to ensure the comfort and well-being of our students and staff, we have made the decision to transition to virtual classes. Virtual classes will enable us to continue delivering quality education while ensuring that our students can learn from the comfort of their homes without being exposed to the harsh weather conditions outside.

Furthermore, I am delighted to inform you that we have taken proactive measures to enhance the comfort of our students and staff by equipping our classrooms with air conditioning systems. These air-conditioned classrooms will provide a cool and conducive environment for teaching and learning, ensuring that our students can focus and thrive in their academic pursuits.

As we embark on this new phase of virtual learning and enjoy the comfort of air-conditioned classrooms, let us continue to prioritize the health, safety, and academic success of our students.
